- Led consultations with existing and potential clients, devising clarity-driven project plans that elevated product usability.
- Perform code reviews of other team members' work and recommend changes to improve code quality.

EDUCATION

Deep Dive Into Modern Web Development

University of Helsinki • Dec 2021 – Apr 2022

Learned React, Redux, Node.js, MongoDB, GraphQL and TypeScript in one go! This course introduced me to modern JavaScript-based web development. The main focus was on building single page applications with ReactJS that use REST APIs built with Node.js.

UI/UX Design

Geolab • Jan 2020 – Dec 2021

In the UI/UX course, I learned essential principles of user interface and user experience design. Topics covered included wireframing, prototyping, user research, and interaction design. I gained hands-on experience with tools like Sketch, Figma, and Adobe XD, improving my ability to create intuitive and visually appealing designs.

SKILLS

React

NextJS

NodeJS

TypeScript

JavaScript

SQL

HTML/CSS

TailwindCSS

Express

MongoDB

CI/CD
